BMP61 Label Printer

Performance that matches your own

www.bradyeurope.com/BMP61

Designed with molded rubber bumpers and a vivid colour touch screen with on screen indicators, the rugged and reliable BMP61 Label Printer will be your trusted identification companion of choice, all day, every day, for years to come.

The BMP61 Label Printer offers great performance that matches your own. It is portable, fast and can handle a lot of identification challenges thanks to its wireless connectivity and a wide range of durable labels to print on.

Data management versatility

The printer features on-board list management. Use the printer's USB-ports to copy large lists of label design from a computer.

The rugged, portable BMP61 is also available in a wifi-enabled version compatible with Brady Workstation, Brady mobile apps and LabelMark label creation software. Simply create or send label designs from a smart phone to the printer for extremely fast and easy label creation on the job.

High performance

With its 33.8mm/sec print speed, predefined label templates, label creation wizards, built-in label cutter and data serialization options, the BMP61 Label Printer is a durable partner in the field.

Prints in 300dpi multiple qualitative high-performance materials

The rugged, thermal transfer BMP61 Label Printer can print on a wide range of durable die-cut, continuous & custom labels including sleeves, self-laminating labels and raised profile labels up to 48,76mm wide.

Every BMP61 label and ribbon is automatically recognised and auto-calibrated by the printer. The printer's colour touch screen displays which label material is currently installed and how many labels, how much ink and how much battery is left for maximum ease of use.

Customise your labels in personalised shapes or dimensions, in specific colours or layouts or with your logo already present on the label. Simply insert the custom labels in your BMP61 Label Printer to solve your identification challenges.
